SPRING / SUMMER 2012

WE³

YOU LACK THE COURAGE TO BE CONSUMED IN FLAMES AND
TO BECOME ASHES: SO YOU WILL NEVER BECOME NEW,
AND NEVER YOUNG AGAIN!

- FRIEDRICH NIETZSCHE

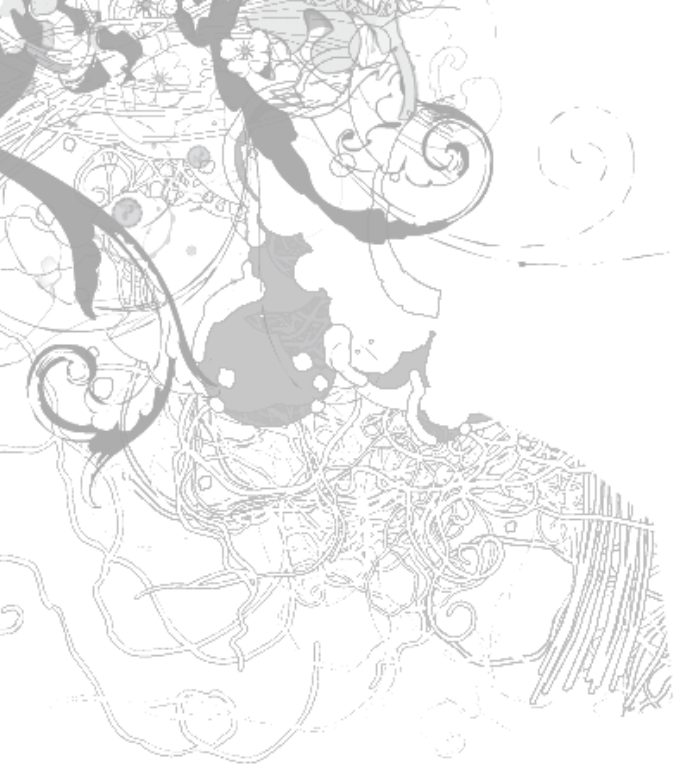

It is said that every 7 to 9 years every cell in our body is replaced. We rejuvenate and replace: Renewal throughout our whole being. This physical rejuvenation is mimicked in our mental, emotional and spiritual domains: a constant turn over, refreshing our tired ideas, emotional blocks, and drained spirits culminating in quantum life changes.

Twigg&hottie, the home of We3 Designs opened in 2003 – 8 years later we found that this life cycle also applies in business. The space needed to do a better job of reflecting

its evolved and matured designs. Welcome to our new look!

All materials used in the renovation were ‘Eco’ products from low VOC paints to Eco paint stripper to reclaimed wood for our racks and feature walls. Our ceilings now boast LED lights that will burn for ten years. Not to mention the elbow grease, blood and sweat - but fortunately no tears. The end result is a warm, welcoming natural environment that reflects our sustainable mandate and shows off We3 Designs in all its glory.
